AUTHOR BRAND STORY

FROM STEWARDSHIP TO CONTENTMENT

“What changes when we truly trust God with everything?”

For nearly four decades, Scott Rodin’s work has centered on questions of leadership, resources, responsibility, generosity, purpose, and faith. Across countries, cultures, organizations, and stages of life, he has observed a recurring struggle: people may believe in God’s provision while still living with an underlying fear that there will not be enough.

Enough money. • *Enough* security. • *Enough* time.
Enough recognition. • *Enough* opportunity. • *Enough* certainty.

Scott invites readers to discover the freedom that becomes possible when God Himself is recognized as *enough*.

PROFESSIONAL SYNOPSIS

What if one of the greatest obstacles to contentment is not how much we have, but what we believe about whether there will ever be enough?

From the biblical story of Eden onward, humanity has wrestled with the temptation to distrust God's sufficiency. That ancient struggle continues in modern life through anxiety, comparison, striving, accumulation, control, and the persistent fear of scarcity.

In ***ENOUGH***, R. Scott Rodin examines how scarcity thinking can shape our relationship with God, ourselves, our resources, and the world around us. Through three promises of God and twelve transformative truths, readers are invited to challenge scarcity-driven thinking and rediscover a life rooted in God's abundance.

The answer to our fear of not having enough is not acquiring more—but learning to trust the God who is enough.

It begins with recognizing that God is enough.
